Tõnu Altosaar

Born in Tallinn, Estonia in 1943, Tõnu grew up in St. Catherine's, Ontario, graduating from the University of Toronto School of Architecture in 1967.

Tõnu joined Bregman+Hamann Architects, becoming a partner in 1975. In his continuing career with B+H, he has worked with leading developers on major multi-use projects across Canada including successful collaboration with other Canadian and international architectural practices. Tõnu maintains a specialty in Interior Design, was a founding partner of B+H Interior Design Inc. and served as a member of the RAIC Interiors Committee.

Tõnu is active in his community, serving on the Board of Directors of Providence Healthcare and as a member of the Houses of Providence Task Force. He has participated in a number of television programs concerning architecture and the profession. He is a member of the executive of the Estonia Businessmen's Club in Canada and is Chairman of Estonian Architects in Canada.

Tõnu has played a noteworthy and significant role in the successful marketing and export of Canadian architectural expertise overseas, to Europe and the Far East, including major developments in Poland, Jakarta, Estonia, St. Petersburg and Shanghai. He has aided in the development of professional skills and business competency in the practice of architecture in former Iron Curtain countries through his involvement as member of the International Economic Board to the Prime Minister of The Estonian Republic, as a Director of the Baltic Business Council and as member of the Advisory Council of the East/West Enterprise Exchange for the Schulich School of Business at York University.

Tõnu Altosaar has enhanced the stature of Canadian architects and played a leadership role in extending their capabilities and expertise worldwide.

Shaun Douglas Clancey

Doug graduated from Carleton University in 1973 from the first graduating class of the School of Architecture. Following graduation, Doug traveled west to work in Vancouver before returning to settle in hometown Ottawa.

Upon return to Ottawa, Doug continued his time as an intern with Murray & Murray, Griffiths and Rankin and stayed to become a senior design and project architect with the firm. In 1979 he was a founding partner in Clancey Webster Partnership and began a career of varied and important projects including work on the proposed National Archives for Australia and the National Aviation Museum in Ottawa. During this time, Doug developed an interest and focused commitment to professional issues. He has been an active member of the Ottawa Regional Society of Architects and went on to represent his Ottawa peers as their OAA Councilor and as a member of the OAA Practice Committee. His experience with community development issues culminated in his appointment to the City of Ottawa Committee of Adjustment and held the position of Vice-Chair from 1989 to 1995.

Doug moved on to become a principal of KWC Architects (formerly Katz Webster Clancey) in 1991 and has developed a reputation as an accomplished specialist in laboratory planning and design. His contributions to public service expanded to include membership on the Ontario Building Code Commission as well as becoming Chair of the Part 5 Advisory Committee to the National Building Code. He consistently continues to contribute his time and talent to the betterment of the profession.

Jean-Guy Côté

Jean-Guy Côté compléta ses études en architecture en 1971 à l'Université de McGill, sous la gouverne de Ray Affleck. Il y reçut le Prix Murdoch Lang pour la conception de projets en habitation. Son premier stage fut chez Arcop, où il participa à des projets à New York et ailleurs.

Après un emploi chez Tétreault Parent Languedoc, où il consolida ses bases techniques, il se joint à SOMER, une firme multidisciplinaire, en tant que membre d'un groupe de planification, où il en prit la direction. Chez SOMER, il fut impliqué dans une variété de projets allant de l'intégration d'un système de transport léger sur rail dans un environnement urbain à la programmation d'un centre culturel en Oman.

En 1978, il s'associa à Norman Glouberman pour fonder Côté Glouberman Architectes (CGA). Au tout début des années '80, il s'intéressa à l'utilisation des ordinateurs en architecture, avant même l'apparition des premiers PC et d'Autocad. CGA a toujours été à l'avant-garde dans le développement et la fourniture de services informatisés.

En 1992, CGA fusionna avec Arcop pour former Le Groupe Arcop. À titre d'associé senior, Jean-Guy Côté a dirigé plusieurs projets majeurs, soit le nouveau Parlement du Nunavut et le Complexe hôtelier du Casino du Lac-Leamy. Depuis quelques années, il consacre une partie importante de son temps à l'amélioration des conduites de travail et de la qualité des services ainsi qu'à la formation professionnelle du personnel du Groupe Arcop.

Ses connaissances en conception et en technique et ses aptitudes à travailler en équipe, lui ont mérité le respect de nombreux intervenants dans l'industrie de la construction.

Norman W. Critchley

To say that Norm Critchley is passionate about architecture would be an understatement. Proof is witnessing Norm drive 1,700 km in 3 days to site meetings at the age of 75. For the past 49 years, Norm Critchley has been the soul of the firm of Critchley Delean et al.

As a bristling teenager graduated from high school, too young for University, Norm occupied his time playing music in the in the big name jazz bands of the day. This passion for music has been a lifelong love with his involvement in numerous bands, groups, quartets and concert master violinist with the North Bay Symphony. Norm has always been community-minded with his involvement in the OAA as Councillor, Treasurer, and Past President of the local chapter. His involvement with local Service Clubs and Chamber of Commerce to mention only a few has earned him recognition as a community leader.

Norm's passion and love of work is evident in his desire to 'get it right'. More than once his colleagues have raised an eyebrow in the number of preliminary schemes generated for a client in an attempt to get the best solution.

Norm can be outspoken, but with several years of earned expertise he may still concede a main point with grace.

His legacy of outstanding work primarily in the field of educational buildings is astounding. He has perhaps been involved in more schools in Northern Ontario than any other Architect. Elementary, Secondary and Post Secondary institutions have been Norm's palette, or more appropriately, his symphony in bricks.

Lucien P. Delean

Lucien Delean has contributed significantly to the quality of architecture in Northern Ontario for more than 30 years. As a partner of a successful practice he has personally guided the conception, design and implementation of many significant projects including libraries, schools and hospitals.

He graduated with honours from the School of Architecture at the University of Toronto. He also gained the distinction of the RAIC Medal, the Indiana Limestone First Prize, the Anaconda Brass First Prize, the Argo Block Award, Hobbs Glass Award and Third Prize in the Pilkington National Award.

Sa contribution à la culture franco-ontarienne a été tout aussi importante.

Lucien a participé à de nombreux projets visant les arts dans le Nord de l'Ontario. Il est membre fondateur de la North Bay Arts Collection et de la Northland Transportation Commission Art Collection. Il appuie de façon indéfectible l'expression artistique de sa collectivité. Il a pris part aux activités de nombreux organismes communautaires, y compris en tant que président du YMCA de North Bay, président du Club Kiwanis, président de la commission régionale de planification, membre de la commission de la bibliothèque de North Bay et président de la Semaine française.

Parmi ses récents projets d'architecture, on trouve l'édifice du siège social d'Ontario Northland à North Bay, le palais de justice et le bureau des greffes de North Bay, les résidences des étudiants de l'Université de Nipissing, ainsi que les condominiums Harbourside de North Bay. Lucien a également contribué de façon appréciable à la conception du centre régional de santé de North Bay.

Lucien est père de cinq enfants, dont deux architectes qui ont hérité de sa vision et de son engagement vis-à-vis de l'art et de la science de l'architecture au Canada.

John K. Dobbs

John graduated from the Northern Polytechnic, London, England in 1969 with a Diploma in Architecture (Honours). Upon graduation John emigrated to Canada and practiced architecture in Nova Scotia until 1975 and then in Newfoundland until 1982. In 1982 he returned to Nova Scotia and formed a partnership with David Forsythe.

John has been responsible and worked on a number of significant buildings in both Newfoundland and Nova Scotia. Included among those is the Purdy's Wharf Development in Halifax, NS (with Shore Tilbe Irwin and Partners). This was one of the first large scale developments to use seawater as the means of heating and cooling.

As Secretary/Treasurer and then Vice-President of the Newfoundland Association of Architects and as Councillor/Registrar for the Nova Scotia Association of Architects, John has made himself a vocal advocate for the profession, and its role as a significant contributor to society. He has recently retired as President of the Design and Construction Institute of Nova Scotia – an organization that fosters closer ties and understanding between the construction industry and designers.

John believed an architect's education only starts in school and requires exposure to a variety of projects and clients. Through his expertise in obtaining a wide variety of clients in commercial and institutional work, John has provided the opportunity for the next generation of architects to experience the evolution of an architectural practice.

In an ever changing and challenging industry, John has demonstrated over the past 25 years that a small firm can grow, prosper, provide leadership and nurture the next generation of architects.

David A. Down

David Down graduated from the University of Victoria with a B.A. in Urban Geography and Art History in 1982 and from the University of Calgary with a Masters in Architecture in 1988.

In Calgary David has worked with Merchant Chomik Architects, with Jenkins and Sturgess Architects and with Jenkins and Associates before forming the partnership Down + Livesey Architects with Graham Livesey in 1995. Most recently David has joined the firm of Busby Perkins + Will to run their Calgary office.

David has been active on the Alberta Association of Architects' Council for several years. He has held the positions Vice President - Voice for three years, Vice President Practice/Registrar and most recently David was President of the Association for the term 2003-2004.

David is an energetic advocate for architecture in the Canadian arts community. His pursuit of and respect for excellence in design is evident with his frequent written contributions to a number of design and architectural publications. He is chairman of the Calgary Architectural and Urban Studies Alliance (CAUSA) and an adjunct professor at the University of Calgary in the Environmental Design Program.

David travels with his wife Barb and their two children whenever he can. He sits on a number of community and arts boards in Calgary.

Jacob Fichten

Jacob Fichten graduated from McGill University with a Bachelor of Architecture in 1967. He is a senior principal architect and a founding partner of Fichten Soiferman et Associés Architectes (fsa), a Montreal architectural firm which was founded in 1981. During his career, he has had the responsibility of directing numerous large-scale and important projects and has contributed significantly to the positioning of fsa as one of the prominent Montreal firms. Many of the projects under his responsibility have been recognized for their excellence.

Jacob has extensive experience in the planning, design and construction of airport, commercial and institutional facilities, and has developed an expertise in the development of building envelope systems for buildings of a special nature.

During the 1990's, Jacob Fichten played an active role in the AAPPQ and served as a member of its executive. Throughout his career, he has participated in various community activities. Since 1966, he has devoted much of his spare time assisting disabled sailors and has played a key role in the formation and operation of AQVA (l'Association Québécoise de Voile Adaptée). He has been active in fund raising for this organisation, in designing specially adapted systems and most importantly in assisting disabled sailors to experience this sport and to participate, since 1997, in the annual "Mobility Cup", which has been held in various parts of Canada. He was chairman and a key organiser of the 2000 "Mobility Cup", which was hosted in Montreal.

Jacob is an incredibly energetic person and he applies the full force of his energy to whatever he undertakes. He is a person of great integrity and is admired by his colleagues, clients, associates and employees for his knowledge and his professionalism.

Yves Gosselin

Natif d'Ottawa, Yves Gosselin y a aussi passé l'essentiel de sa vie : vie privée, vie publique, vie familiale, vie professionnelle....

Bachelier en Architecture de l'Université Carleton en 1973, c'est à Montréal qu'il entreprend son stage, qu'il termine à Calgary. Là, il travaille non seulement dans les secteurs public et privé, mais il s'investit à fond dans le milieu académique où il poursuit des études supérieures. En 1978, il obtient sa maîtrise (M.E.Des. Urbanism) de l'Université de Calgary et par la suite continue d'évoluer dans le domaine de la pratique architecturale et du design urbain.

C'est en 1983 qu'il accepte le poste d'architecte en chef à la Commission de la capitale nationale (CCN), à Ottawa. Il quitte la CCN en 2000, où il occupe alors le poste de Directeur Design et Construction pour joindre l'équipe de Travaux Publics et Services Gouvernementaux Canada à titre de Directeur dans le secteur de l'architecture et du génie. Sous sa gouverne, le travail de son équipe à la CCN s'est mérité plusieurs prix d'excellence.

En parallèle à sa fructueuse carrière au sein de la fonction publique fédérale, Yves contribue sans compter aux diverses activités académiques de son alma mater, où il fait toujours partie du corps professoral. En outre, il s'implique depuis plusieurs années dans diverses associations professionnelles, tout particulièrement l'IRAC, et il est invité à faire partie de jurys pour des concours de design urbain.

Inlassablement, il met ses compétences, son expérience, son enthousiasme, et sa passion pour l'architecture au service de la promotion et de l'avancement de la qualité architecturale et du cadre bâti en milieu urbain.

Paul G. Harasti

Paul Harasti graduated from the University of Toronto in 1965 with a degree in architecture, and successfully practiced in the private sector for 10 years prior to joining the Federal Government as a senior executive. He is currently Chief Architect, and Ontario Regional Manager, Architecture and Engineering Professional and Technical Services, Real Property Branch of Public Works and Government Services Canada.

As the senior professional in the Ontario Region, PWGSC, Paul is accountable for the effective management and provision of all Architecture and Engineering planning, design and construction services for federal building programs. PWGSC works in partnership with the private sector for the majority of all services required. Paul also heads up the procurement of consultants to meet architectural and engineering needs for Ontario PWGSC programs.

For three decades, Paul has advocated within PWGSC, the adoption of industry standards and professional practices. He has pioneered and striven in the development of processes that have resulted in national policies of quality-based consultant selection for PWGSC work.

Paul Harasti has championed above all, design excellence in Federal Architecture throughout his career. He has assured design quality by setting appropriate criteria, overseeing consultant selection on a merit basis, and directing the design process to meet the goals established.

Larry Jones

Born and raised on Prince Edward Island, Larry Jones graduated from Nova Scotia Technical College in 1972 with a Bachelor of Architecture degree.

In 1976, Larry became the second member to join the newly formed Architects Association of PEI. He partnered with Terry Manning in the firm Jones and Manning Architects, which is still operating today. Larry completed many distinctive architectural projects. The largest of these, the Health and Animals and Plants Laboratory is a level 3 laboratory with an unabashed contemporary style, which still occupies a prominent spot on the architectural landscape of PEI. Larry's latest project is the GOCB building, a Green office building designed to be a model for future government buildings across Canada. This building includes a great number of sustainable design elements and aims to obtain Platinum LEED certification.

Larry has served the profession through his many years on council of AAPEI, several as president. He has worked to encourage good architecture on PEI, both by improving the awareness of architecture among the communities and by developing partnerships with national and international firms. By establishing these new partnerships, Larry has been able to develop the local design industry and maintain a local aesthetic.

Recognizing the need to consolidate in order to have the capacity for larger projects, Larry joined two other Island firms to create Bergmark Guimond Hammarlund Jones Architects in 1999, now the largest architectural firm on PEI. This firm has succeeded in securing commissions such as the now completed Prince County Hospital, the Atlantic Technology Centre and the Institute for Nutrisciences and Health, in addition to the GOCB Charlottetown.

Roger Mitchell

Roger Mitchell was born in Saskatchewan, graduated from the University of Manitoba in 1971 and returned to practice in the province following graduation. A partner in the firm Banadyga Mitchell Partnership Architects, Roger has distinguished himself in design and service to the profession over the past 30 years.

A long time member and supporter of the RAIC, Roger generously contributes his time serving as RAIC Syllabus Coordinator for southern Saskatchewan. Roger has been a mentor to young aspiring architects for the past two decades. He is a member, Past President and former Councillor of the Saskatchewan Association of Architects. During his term as President he championed the Association's publishing of the book "Historic Architecture of Saskatchewan" which is a legacy to Saskatchewan Architects.

Roger has been a long time advocate of human rights. He is a founding board member of Chesire Homes of Regina Society, a Society dedicated to providing housing for physically challenged young adults and the co-author of the Saskatchewan Accessibility Standards Guidelines adopted by the Saskatchewan Human Rights Commission in 1980. He currently is architect to the South Saskatchewan Independent Council helping them realize their dream of providing new innovative independent living options for the extremely physically challenged.

In addition to his advocate role, Roger has always been committed to community and specifically the Scottish cultural community serving as Ambassador and executive member of the Regina Scottish Society and former Trustee and President of the Fraser Pipe Band Inc.

Roger has received numerous design awards and recognition over the years and continues to make significant design contributions his community. Mitchell has worked to improve the standard of architectural practice in Saskatchewan to the benefit of present and future architects.

L. Alan Munn

Mr. Munn graduated from Queen's University with a Bachelor of Science in Mechanical Engineering and the Rhode Island School of Design with a Bachelor of Fine Arts and Bachelor of Architecture degrees. He joined Zeidler Partnership in 1976 and was made an associate in 1984. In 1998 he became a partner and has been a Senior Partner since 2002.

In addition to exemplary design, Alan feels it is important to offer clients the highest levels of service throughout the architectural process and to be proficient in all phases of practice. To that end, he has developed special expertise in such areas as project delivery and sustainability. In leading his firm in this regard, he was the first to become LEED accredited. He has been Project Architect for many of the firm's most prestigious projects, including Canada Place in Vancouver, Ontario Science Centre - Omnimax, Commerce Court Renewal, Royal York Hotel Renovations, The Brampton Courthouse, Penetang Correctional Facility and the expansion of Canada Place among many others.

As Senior Partner, he is managing the firm's expansion into Alberta, British Columbia and Beijing while coordinating offices in West Palm Beach, London (UK) and Berlin.

Professionally, he has given time to such organizations as the NBC Standing Committee on Fire Protection for the 1995 code cycle. He has also spoken on Design Build at conferences and to students.

At the community level, he has contributed his leadership skills to his local soccer club as a Level 3 Certified Soccer Coach. He has also been active with local charities and political organizations.

Brigitte Shim

Brigitte Shim, a partner in the Toronto firm, Shim-Sutcliffe Architects, has become well known nationally and internationally as one of Canada's most talented and distinguished architects. Born in Jamaica, she received a Bachelor of Architecture from the University of Waterloo in 1983, then apprenticed with Baird/Sampson Architects in Toronto. In 1988 she started teaching at the University of Toronto and has continued there for 15 years, where she is a tenured, Associate Professor in the Faculty of Architecture, Landscape and Design.

She has lectured or been a visiting critic in more than 100 locations worldwide. Professor Shim was Visiting Professor at Harvard University in 1993 and 1996. In 2001 she held the prestigious Henry Bishop Visiting Chair in Architecture and was also the Visiting Bicentennial Professor in Canadian Studies at Yale University. In 2002, she was Visiting Professor at the École Polytechnique Fédérale de Lausanne in Switzerland.

With her husband and partner Howard Sutcliffe, Brigitte Shim has received 30 major design awards including eight Governor General Medals and Awards, a Progressive Architecture Citation, three Architectural Record Houses Awards, a Canadian Architect Award of Excellence, and numerous awards from the American and Canadian Wood Councils. In 2002, Shim-Sutcliffe Architects received the Toronto Arts Award for Architecture and Design.

Characterized by rigorous and imaginative understandings of site and topography; inventive use of construction, materials, and textures; and exquisite orchestration of space and form, the architecture of Shim-Sutcliffe is deeply Canadian, reconnecting us to the spirit of the Group of Seven painters. Brigitte Shim has attained an international stature that brings strong recognition and great respect for Canadian architecture.

Lesley D. Watson

Lesley Watson founded L.D. Watson Architect Inc. in 1990 with the objective of developing an architectural practice focused on specialized architectural services in the long-term care, health and institutional sectors. The firm matured to become a mid-sized Ottawa-based firm. After nine years, with this initial niche established, the firm was further developed with Rick MacEwen joining Ms. Watson. In 2000, Watson MacEwen Architects was formed as a Partnership of Corporations. Ms. Watson is the Managing Partner of the practice.

Lesley Watson has over 22 years of experience as an architect. Her recognized area of specialization has been the design of research and development facilities, long-term care and specialized facilities for the aged. These are programmatically, technically and logistically complex projects.

Prior to establishing her own practice, Lesley Watson worked in Ottawa with Otto + Bryden Architects, Pye and Richards Architects, Edward J. Cuhaci & Associates Architects and B.J. Hobin & Associates Architects.

Lesley Watson adheres to a hands-on approach and is highly involved in all stages of her project's development. She is skilled at coordinating the efforts of large teams of consultants and working with clients. She has successfully completed many projects with restricted budgets and aggressive schedules.

Throughout her career Ms. Watson has been actively involved with the profession locally, provincially and nationally. She was President of the Ontario Association of Architects and sits as the Councillor for Eastern Ontario, in her second term on Council.
