ARCHITECTURE

EDMONTON 2020

JUNE 3-7 • DU 3 AU 7 JUIN

The Royal Architectural Institute of Canada (RAIC) is excited to announce that the 2020 Conference on Architecture is being held in Edmonton! This year's event takes place June 3 to 7, 2020 at the Edmonton Convention Centre. The four-day event will bring hundreds of delegates to Edmonton, AB for continuing-education sessions, tours, awards ceremonies, keynotes, social activities, and more. Information about speakers and programs will be available on January 6, 2020 at raic.org.

Who Will Attend?

Delegates include leaders in architecture and design, emerging talents in architecture, students entering the field, faculty, media, and allied professionals.

Architects plan and design all kinds of buildings and the spaces around them. They specify construction materials and processes and make decisions about what products to specify. Architects are the innovators who introduce new products and technologies to the design and construction team; first-hand knowledge is invaluable. By being involved in the conference, partners and exhibitors gain an opportunity to showcase and describe their products and services to decision-makers as well as discover the latest industry needs and trends.

Partnership/Sponsorship Opportunities

Don't miss this chance to connect directly with industry leaders and experienced professionals who control purchasing budgets and come to the conference looking to learn about new products and services. This partnership/sponsorship package is your invitation to join us and to be remembered among the influencers and decision-makers who attend this event. Your participation gives you an opportunity to make valuable contacts, increase sales, and join the discussion on making a better built environment.
