

PUBLIC DESIGN CONTEST – ARCHAEOLOGICAL COMPLEX FOR THE ROMAN VILLA OF RABAÇAL

Contracting Authority

Municipal Council of Penela

Object

Archaeological remains of the Roman Villa of Rabaçal in Penela

Programme Aims

The present procedure has as its object the selection of three (3) Design Works, with the aim of promoting the reflection and debate about the preservation and protection conditions of the archaeological remains of the Roman Villa of Rabaçal in Penela, taking into consideration a broad intervention that will provide access to visitors, the creation of a museum, the creation of spaces for educational services, among others, so that it is possible to find solutions that effectively contribute to the mature and secure development of a preliminary program for a second procedure aiming at the acquisition of project design services for the “Protection of the Archaeological Site, Museum and Accesses of the Roman Villa of Rabaçal”.

Competitors

They can present design work, whilst competitors, Architects or legal entities of architecture, qualified to the profession in the country where they are registered. For this purpose, each competitor must form a multidisciplinary project team coordinated by the architect, author of the original project.
